NEW QUESTION: 1
2
Which of the following statements is not listed within the 4 canons of the (ISC) Code of Ethics?
A. All information systems security professionals who are certified by (ISC) shall promote and preserve
2
public trust and confidence in information and systems.
B. All information systems security professionals who are certified by (ISC) shall observe all contracts
2
and agreements, express or implied.
C. All information systems security professionals who are certified by (ISC) shall think about the social
2
consequences of the program they write.
D. All information systems security professionals who are certified by (ISC) shall render only those
2
services for which they are fully competent and qualified.
Answer: C
Explanation:
Explanation/Reference:
Explanation:
The social consequences of the programs that are written are not included in the ISC Code of Ethics Canon.
Note: The ISC Code of Ethics Canon includes:
Protect society, the common good, necessary public trust and confidence, and the infrastructure.

Act honorably, honestly, justly, responsibly, and legally.

Provide diligent and competent service to principals.

Advance and protect the profession.

Incorrect Answers:
A: The ISC Code of Ethics Canon states that you should provide diligent and competent service to principals. This means that you should observe all contracts and agreements.
B: The ISC Code of Ethics Canon states that you should provide diligent and competent service to principals. This means that you should render only those services for which you are fully competent and qualified.
C: The ISC Code of Ethics Canon states that you should protect the necessary public trust and the infrastructure/systems.

NEW QUESTION: 4
Which of the following software tools is often used for stealing money from infected PC owner through taking control of the modem?
A. None of the choices.
B. War dialer
C. Porn dialer
D. System patcher
E. T1 dialer
F. T3 dialer
Answer: C
Explanation:
Explanation/Reference:
Explanation:
One way of stealing money from infected PC owner is to take control of the modem and dial an expensive toll call. Dialer such as porn dialer software dials up a premium-rate telephone number and leave the line open, charging the toll to the infected user.
