SAP Purchasing latest computer based training and latest C_TS413_2020 intereactive testing engine for you and they are going to shape up your preparation in an effective way.

NEW QUESTION: 1

A user has created a mobile application which makes calls to DynamoDB to fetch certain data. The application is using the DynamoDB SDK and root account access/secret access key to connect to DynamoDB from mobile. Which of the below mentioned statements is true with respect to the best practice for security in this scenario?

- A. The user should create an IAM role with DynamoDB and EC2 access. Attach the role with EC2 and route all calls from the mobile through EC2
- B. Create an IAM Role with DynamoDB access and attach it with the mobile application
- C. The application should use an IAM role with web identity federation which validates calls to DynamoDB with identity providers, such as Google, Amazon, and Facebook
- D. The user should create a separate IAM user for each mobile application and provide DynamoDB access with it

Answer: C

Explanation:

Explanation/Reference:

Explanation:

With AWS IAM a user is creating an application which runs on an EC2 instance and makes requests to AWS, such as DynamoDB or S3 calls. Here it is recommended that the user should not create an IAM user and pass the user's credentials to the application or embed those credentials inside the application. If the user is creating an app that runs on a mobile phone and makes requests to AWS, the user should not create an IAM user and distribute the user's access key with the app. Instead, he should use an identity provider, such as Login with Amazon, Facebook, or Google to authenticate the users, and then use that identity to get temporary security credentials.

NEW QUESTION: 2

Your company has more than 500 customers. You plan to set up customer groups in Microsoft Dynamics AX 2012 to support the creation of the customer master. What is the minimum number of customer groups that you must set up?

- A. 0
- B. 1
- C. 2

D. 3

Answer: C

NEW QUESTION: 3

Which of the following command can show the configuration information in RAM of Quidway router?

- A. display processes memory
- B. display interface
- C. display saved-configuration
- D. display current-configuration

Answer: D
