NEW QUESTION: 1

HOTSPOT

You are working for a global company that has offices in many regions of the world. The company has strict policies that govern how and where application may be deployed. You have an application that must be deployed to one specific region. The application requires premium storage.

You need to recommend the appropriate policies.

Which policies should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer:

Explanation:

Explanation/Reference:

Explanation:

Box 1: Allowed Locations

The Allowed Locations policy enables you to restrict the locations that your organization can specify when deploying resources. Its effect is used to enforce your geo-compliance requirements.

Box 2: Allowed Storage Account SKUs

Allowed Storage Account SKUs: This policy definition has a set of conditions/rules that determine if a storage account that is being deployed is within a set of SKU sizes. Its effect is to deny all storage accounts that do not adhere to the set of defined SKU sizes Reference:
