Answer: A

NEW QUESTION: 2

What is one requirement for locking a wired or wireless device from ISE?

- A. The ISE agent must be installed on the device.
- B. The organization must implement an acceptable use policy allowing device locking.
- C. The device must be connected to the network when the lock command is executed.
- D. The user must approve the locking action.

Answer: A

Explanation:

Agents are applications that reside on client machines logging into the Cisco ISE network. Agents can be persistent (like the AnyConnect, Cisco NAC Agent for Windows and Mac OS X) and remain on the client machine after installation, even when the client is not logged into the network. Agents can also be temporal (like the Cisco NAC Web Agent), removing themselves from the client machine after the login session has terminated.
