NEW QUESTION: 1
Your company has a branch office that has three floors. The office currently uses a different subnet on each floor. The subnets are configured as shown in the following table.

You have been asked to use reconfigure the network to use one subnet that encompasses all three floors. The new subnet will come from the 192.168.0.0/16 address space.
You need to identify which IP address and which subnet mask to use for the default gateway. The solution must meet the following requirements:
* Use the first available subnet
* Use a single subnet for all three floors.
* Use the first available IP address on the segment for the default gateway.
* Minimize the number of unused IP addresses.
Which IP address and which subnet mask should you identify? To answer, select the appropriate options in the answer area.

Answer:
Explanation:

NEW QUESTION: 2

NEW QUESTION: 3
A corporation relies on a server running a trusted operating system to broker data transactions between different security zones on their network. Each zone is a separate domain and the only connection between the networks is via the trusted server.
The three zones at the corporation are as followed:
-Zone A connects to a network, which is also connected to the Internet through a router.
-Zone B to a closed research and development network.
-Zone C to an intermediary switch supporting a SAN, dedicated to long-term audit log and file storage, so the corporation meets compliance requirements.
A firewall is deployed on the inside edge of the Internet connected router.
Which of the following is the BEST location to place other security equipment?
A. A NIDS on the switch in Zone C, a WAF in Zone A, and a firewall in Zone B.
B. HIPS on all hosts in Zone A and B, and an antivirus and patch server in Zone C.
C. A NIPS on the switch in Zone C, an antivirus server in Zone A, and a patch server in Zone B.
D. A WAF on the switch in Zone C, an additional firewall in Zone A, and an antivirus server in Zone
Answer: C

NEW QUESTION: 4
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Hyper-V host named Server1 that hosts a virtual machine named VM1. Server1 and VM1 run Windows Server 2016.
The settings for VM1 are configured as shown in the exhibit. (Click the Exhibit button.)

You need to ensure that you can use the Copy-VMFile cmdlet on Server1 to copy files from VM1.
Solution: You enable the Data Exchange integration service for VM1.
Does this meet the goal?
A. Yes
B. No
Answer: B
