If you want to know more about our test preparations materials, you should explore the related DEE-2T13 exam Page, GUARANTEED TO PASS, High efficiency DEE-2T13 practice test materials have inclusive meaning, and the first one to mention is that your time is saved.

NEW QUESTION: 1

A customer wants to add a second dual port Fiber Channel adapter to a BL460c Gen8 Server in an HP BladeSystem?

- A. FC HBA in Mezzanine two with FC interconnects in slots seven and eight
- B. FC HBA in Mezzanine two with FC interconnects in slots five and seven
- C. FC HBA in Mezzanine two with FC interconnects in slots five and six
- D. FC HBA in Mezzanine two with FC interconnects in slots three and four

Answer: C

Explanation:

In typical HP lazy question style this answer is open to debate, as we do not know if they are using a c7000 or c3000 chassis... In cases like this plum for whatever makes HP more money..! So c7000 in this case...

<http://h20000.www2.hp.com/bc/docs/support/SupportManual/c00810839/c00810839.pdf>

All of HP c-Class FC HBA's are Dual Ported and their signals can only route out of ports #1 and #2

- even when they are installed in a Mezz slot with 4 signal paths... There is NO WAY to alter this...

So, if we assume the question is aimed at a c7000 enclosure then:

A FC HBA installed in Mezzanine #2 would route signals to Interconnect Bays 5 & 6 on a c7000 enclosure.

However, if we assume the question is aimed at a c3000 enclosure then:

A FC HBA installed in Mezzanine #2 would route signals to Interconnect Bays 3 & 4 on a c3000 enclosure.

NEW QUESTION: 2

The Asset Library is:

- A. A marketplace where IBMers, partners, and customers can browse, use and offer feedback on assets that compliment existing IBM products
- B. A set of Documentation on different industry asset types supported by the IOC
- C. None of the above

D. A unified collection of IBM product documentation for the bill of material contained within IOC

Answer: A

NEW QUESTION: 3

Scenario:

There are two call control systems in this item.

The Cisco UCM is controlling the DX650, the Cisco Jabber for Windows Client, and the 9971 Video IP Phone.

The Cisco VCS and TMS control the Cisco TelePresence MCU, and the Cisco Jabber TelePresence for Windows
