**Answer: C**

Explanation:

The insurance policy in effect at the beginning of the year expired and was renewed during the year. Hence, the entire US \$3,600 beginning balance in the prepaid insurance account should be expensed. The amount of the prepayment on the new policy to be expensed is US \$1,500 [3 months elapsed x \$18,000 - 36-month duration of the policy)].

The debit balance in prepaid insurance at year-end is therefore US \$16,500 (\$18,000 - \$1,500), and total insurance expense is US \$5,100 (\$3,600 + \$1,500).
