NEW QUESTION: 2
Main Street Capital Corporation (MAIN) is registered as a non-diversified investment company under the

Investment Company Act of 1940.Based on this, which of the following statements regarding MAIN are
true?
I. MAIN may not invest more than 5% of its investment monies in any single issuer.
II. The net asset value of MAIN's shares is likely to fluctuate more than that of a diversified investment
company.
III. MAIN's returns are more likely to be affected by any single, specific economic occurrence or regulatory
change.
A. II and III only
B. I only
C. I and II only
D. I, II, and III
Answer: A
Explanation:
Only Selections II and III are true. Because MAIN is a non-diversified investment company, it may invest more than 5% of its investment monies in a single issuer. This results in less risk diversification, so its net asset value is likely to fluctuate more than that of a diversified investment
company. In addition, this means its returns are more likely to be affected by any single, specific
economic occurrence or regulatory change.
