NEW QUESTION: 1

If you want to increase or decrease the canvas size, you should use:

- A. Crop tool
- B. Rotate tool
- C. Canvas tool
- D. Resize tool

Answer: A

NEW QUESTION: 2

SIMULATION

Answer:

Explanation:

We need to configure policy based routing to send specific traffic along a path that is different from the best path in the routing table.

Here are the step by Step Solution for this:

1) First create the access list that catches the HTTP traffic:

```
R1(config)#access-list 101 permit tcp any any eq www
```

2) Configure the route map that sets the next hop address to be ISP1 and permits the rest of the traffic:

```
R1(config)#route-map pbr permit 10
```

```
R1(config-route-map)#match ip address 101
```

```
R1(config-route-map)#set ip next-hop 10.1.100.2
```

```
R1(config-route-map)#exit
```

```
R1(config)#route-map pbr permit 20
```

3) Apply the route-map on the interface to the server in the EIGRP Network:

```
R1(config-route-map)#exit
```

```
R1(config)#int fa0/1
```

```
R1(config-if)#ip policy route-map pbr
```

```
R1(config-if)#exit
```

```
R1(config)#exit
```

Explanation:

First you need to configure access list to HTTP traffic and then configure that access list. After that configure the route

map and then apply it on the interface to the server in EIGRP network.

NEW QUESTION: 3

How does the Cisco policy and access solution handle a changing user base in growing company?

A. Cisco provides you the ability to monitor and restrict application usage. As applications become more complex, Cisco provides the flexibility to control all or subsets of the application.

B. Cisco architecture offers the lowest TCO by providing product that integrate, which lowers the cost of IT setup, management, and maintenance.

CCisco Talos Security Intelligence and Research Group integrates into all security solutions, which provides advanced protection against new threats.

C. Cisco delivers a flexible and scalable security solution framework that can adapt to changing customer needs

Answer: C
