PSD PDF exam questions, Rayong is professional platform to establish for compiling PSD exam materials for candidates, and we aim to help you to pass the PSD examination as well as getting the related certification in a more efficient and easier way.

You can pass PSD certification test on a moment's notice by Rayong exam dumps, We believe strongly that you can make it with our help of materials and services, and with your adamant confidence and our reliable PSD latest torrent you can stand out.

Our PSD preparation exam really suits you best, Now, let us take a succinct look of features of PSD exam questions as follow: Professional PSD study materials.

Passing the Scrum PSD exam is an essential way to help you lay the foundation of improving yourself and achieving success in the future.

NEW QUESTION: 1

For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: No

North America has several Azure regions, including West US, Central US, South Central US, East Us, and Canada East.

Box 2: Yes

A region is a set of datacenters deployed within a latency-defined perimeter and connected through a dedicated regional low-latency network.

Box 3: No

Outbound data transfer is charged at the normal rate and inbound data transfer is free.

NEW QUESTION: 2

A developer writes a Singleton bean that holds state for a single coordinate: An update thread acquires an EJB reference to CoordinateBean and alternates between invoking SetCoordinate (0, 0) and SetCoordinate (1, 1) in a loop.

At the same time, ten reader threads each acquire an EJB reference to CoordinateBean and invoke getCoordinate () in a loop.

Which represents the set of all possible coordinate values [X, Y] returned to the reader threads?

A. [0, 0], [1, 1]

- B. [0, 0], [0, 1], [1, 0], [1, 1]
- C. [1, 1]
- D. [0, 0]

Answer: A

NEW QUESTION: 3

- A. ADO.NET
- B. WCF Data Services
- C. Entity Framework
- D. LINQ to SQL

Answer: B

Explanation:

* Scenario: The cookbook functionality is contained within a client-side application that must connect to the server using HTTP and requires access to the data using JavaScript.

*WCF Data Services (formerly known as "ADO.NET Data Services") is a component of the .NET Framework that enables you to create services that use the Open Data Protocol (OData) to expose and consume data over the Web or intranet by using the semantics of representational state transfer (REST). OData exposes data as resources that are addressable by URIs. Data is accessed and changed by using standard HTTP verbs of GET, PUT, POST, and DELETE

*WCF Data Services uses the OData protocol for addressing and updating resources. In this way, you can access these services from any client that supports OData. OData enables you to request and write data to resources by using well-known transfer formats: Atom, a set of standards for exchanging and updating data as XML, and JavaScript Object Notation (JSON), a text-based data exchange format used extensively in AJAX application.
