NEW QUESTION: 1

A company has offices in New York and London. The current on-premises Exchange 2013 organization has servers in both sites. Mailboxes for users located in New York are on an Exchange server in the New York office. Mailboxes for users located in London are on an Exchange server in the London office.

You must migrate all mailboxes to Exchange Online. You create an Office 365 tenant and specify the company's New York address.

You need to determine where the user's mailboxes will be created.

Where are the mailboxes created in Exchange Online?

- A.** All user mailboxes are created in a random datacenter anywhere in the world.
- B.** Mailboxes for users in London are created in European datacenters. Mailboxes for users in New York are created in North American datacenters.
- C.** During the migration process, an administrator must specify the region where each mailbox is created.
- D.** All user mailboxes are created in North American datacenters.

Answer: D
