There are our advantages as follows deserving your choice, In fact, our WCNA study materials are very popular among the candidates.

NEW QUESTION: 1
HOTSPOT
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
Each correct selection is worth one point.
Hot Area:

Answer:
Explanation:

NEW QUESTION: 2
A 70-year-old client has pneumonia and has just had a respiratory arrest. He has just been intubated with an 8- mm endotracheal tube. During auscultation of his chest, breath sounds were found to be absent on the left side. The nurse identifies the most likely cause of this as:
A. Right mainstem bronchus intubation
B. Left-sided pneumothorax
C. Pneumonia
D. Inappropriate endotracheal tube size
Answer: A
Explanation:
(A) Appropriate endotracheal tube sizes for adults range from 7.0-8.5 mm. (B) Pneumothorax could be indicated by an absence of breath sounds on the affected side. However, in a recently intubated client, the first priority would be to consider tube malposition. (C) During intubation, the right mainstem bronchus can be inadvertently entered if the endotracheal tube is inserted too far. Left mainstem bronchus intubation almost never occurs because of the angle of the left mainstem bronchus. (D) Breath sounds for someone with pneumonia may be decreased over the areas of consolidation. However, in a recently intubated client, the first priority would be to consider tube malposition.

NEW QUESTION: 3
In some industries, is the only strategy that can be followed. Farmers, for instance, must produce in the growing season. The post office must process mail over the Christmas rush and in slack seasons. Restaurants have to serve meals when the customers want them. These

industries cannot stockpile or inventory their products or services and must be capable of meeting demands as it occurs.
A. Production leveling strategy
B. Resource Planning
C. Subcontracting
D. Chase strategy
Answer: D
